

COVID-19 Updates

Mt. San Antonio Gardens is closely monitoring the COVID-19 situation, and is implementing both mandated and voluntary measures to protect the health of our residents and employees. In order to reduce the potential for exposure to infection, the following changes to our general procedures are in place.

- Dining in Independent Living is take-out or delivery (for illness) only
- Dining in Oak Tree Lodge (Assisted Living), Oak Arbor (Memory Care), Magnolia Grove (Skilled Nursing) and Evergreen Villas (Skilled Nursing) is delivered and in-room only.
- Visitors to the Skilled Nursing areas are now completely prohibited, except for specified end-of-life situations, per Centers for Medicare and Medicaid Services (CMS).
- We are also strictly limiting visitors to our Assisted Living and Memory Care areas.
- We ask that residents in Independent Living refrain from having visitors come to campus.
- Residents are advised to refrain from travel.
- Our transportation services are limited to essential medical appointments only.
- In our fitness areas, the swimming pool is to be used by only two people at a time, and the Wellness Center is closed.
- All group meetings and events are canceled until further notice.
